

# wipe dispenser installation

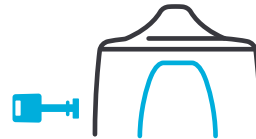

## Collect Hardware

All necessary hardware is included with your dispenser. Drill starter holes for easy install. Always mount to studs or use provided wall anchors.

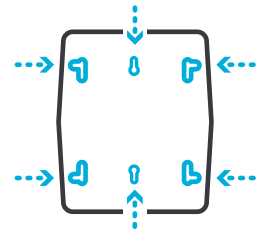

## Wall Placement

The recommended mounting height is no more than 48" from the ground to the bottom of the dispenser. Measure & mark.

## Open Dispenser

Using the dispenser key, open the front door to expose the interior back of the dispenser to mount.

## Mounting

Dispenser can be mounted using either the two center holes\* or four corner holes. Always install into studs or use provided wall anchors.

\*Install into stud if mounting using center holes and two screws for stability.
