

Dog Waste Station

A complete dog waste solution, this station includes a bag dispenser, waste collection receptacle and informational signage all in durable and weather-resistant plastic lumber construction. Keeping your parks and outdoor areas spotless has never been easier. This compact station enables users to clean up after their pets easily and responsibly. Simply access the biodegradable bags from the dispenser and dispose of waste in the bottom receptacle. Plastic lumber construction ensures long-lasting weather and bug-resistant operation. The perfect dog-friendly fix for parks, beaches, municipalities, apartment complexes, neighborhoods, college campuses and any outdoor space.

Best selection, lowest prices.
