

PVC Wall Sign

Our PVC wall signs are a lightweight, durable solution for displaying waste and recycling instructions above bin stations. Made from 3mm foamed PVC, these signs feature a smooth, consistent surface that delivers clear, professional-looking graphics in indoor environments..

Designed for versatility and long-term indoor use, foamed PVC offers excellent all-around performance without adding unnecessary weight.

Best selection, lowest prices.

Polystyrene Wall Sign

Features

- **Foamed PVC Construction** – 3mm PVC provides a balance of durability and lightweight performance for indoor signage.
- **Smooth, Consistent Surface** – Produces crisp, high-quality printed graphics for clear waste stream guidance.
- **Lightweight Indoor Display** – Easy to mount above bins without heavy hardware or wall strain.
- **Rigid, Lay-Flat Design** – Maintains a clean, professional appearance once installed.
- **Highly Versatile Material** – Suitable for a wide range of indoor recycling and waste signage applications.
- **Ideal for Recycling Station Walls** – Perfect for labeling and guiding users at trash and recycling collection points.

Available in a variety of predesigned and customizable options.

Available with standoffs or VHB (Very High Bond) tape for easy wall mounting.
