

Outdoor Transition Sideload Bin

A sleek, high-performance solution designed for outdoor use, but versatile enough for indoor use. Built to withstand the elements while maintaining a clean, streamlined aesthetic, this flexible bin offers a reliable way to manage waste and recycling in any environment. Featuring a slanted roof to keep debris and rain out, it ensures your waste streams remain clean and organized. Eye-level graphics make it easy to identify the correct waste stream, helping prevent cross-contamination and keeping your facility compliant. Constructed from durable HDPE recycled plastic lumber, this container is as environmentally responsible as it is tough, providing long-lasting performance season after season.

Best selection, lowest prices.
