

## The Concord Recycler

An Attractive and Durable Fiberglass Recycling Container to Match Any Setting

Designed to withstand the daily rigors of schools, businesses, large facilities, airports and many other locations. Concord Recyclers all include liners and reinforced plastic opening liners. This recycling system can be specified with the number and types of openings you need to match your recycling requirements.

- Durable fiberglass construction will last for years
- Customizable top allows you to pick the openings you need
- Available in a wide range of colors, sizes and openings
- Separate plastic liners for each opening
- Includes durable recycling labels
- Servicing is easy with the lift off top
