## The Glaro Value Series

A Single Purpose Recycling Receptacle

The Value Series was designed specifically for customers who desire that elegance and durability of the original RecyclePro line but have a limited budget. To accomplish this, the need for an additional inner steel container has been replaced by using heavy gauge custom sized clear poly bags that are designed to have a snug fit. Custom-sized poly bags are easily pulled over the top up to a clearly marked guide-line provided on the outside of each receptacle near the top. When the receptacle cover, which has an extra long overlap, is placed on the body, the poly bag is completely concealed and secured in place.

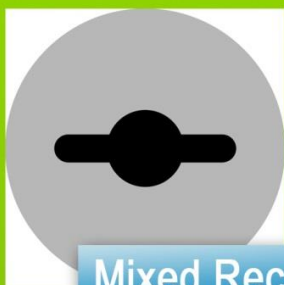

- All metal fire safe construction
- Indoor/outdoor all weather finishes
- Engineered for durability
- 15, 23, and 41 gallon capacity
- 12", 15", or 20" diameter by 30" high
- 27 designer colors and 2 metal finishes
- Custom silk screened messages and logos available
- Manufactured in the USA
- Designed and produced for environmental sustainability

# Glaro Value Series

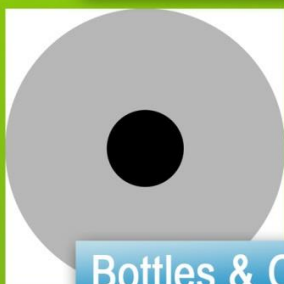

A Single Purpose Recycling Receptacle

## Four Openings Available

Mixed Recyclables
